

Pergola T4

Aluminum canopy structure, with packaging retractable awning, consisting in a fabric fixed to a crossbars and guides system, that allows the horizontal sliding. The structure rests on two small but very strong side brackets of an attractive design. It is stabilized by flat matching braces for a total thickness of 30mm. Guaranteed wind resistance up to class 3 according to UNI EN 13561. The development of condensation on the fabric is natural and not to be considered as a defect.

- C Protection hood
- B Moving electrical control
- I Supporting motor crossbar profile
- O Sliding guide
- F Frontal girder
- N Supporting hood crossbar profile
- P Tightener
